Tidal Information

Full details of the tidal streams, together with a Tidal Atlas for the Strait and the Anglesey coast can be found in "Cruising Anglesey & adjoining waters", available from the Bosun's Locker. Shown below are some of the High & Slack water times around the area. **Note the considerable difference between these two figures in the Menai Strait north of the Swellies & at Bardsey Sound.**

The figures are approximate; since there is only limited agreement between the various tidal authorities.

Club Races

- Normally races start from the RAYC line, off Beaumaris Green.
- The Club (Gallows Point) Line is formed by the transit of the flagpole and pole on the Clubhouse with triangular top marks.
- Look at Club Noticeboard and/or call OoD for changes to published details.

Sailing Programme Notes

- Contact the OoD (see Yearbook p12) if you have any queries about an upcoming event. Because of the location of Club boats, it may not always be possible to post last minute changes on the Noticeboard.
- The Club uses Ch69 for intership working and for promulgating changes to the programme. Maintain dual watch on Ch16/69 if possible.
- Times are all local time (GMT or BST as appropriate).

Social Events

The Club runs a programme of social events, many of them 'attached' to a weekend cruise or a race. Impromptu social gatherings may occur at any time or place. Members are encouraged to carry 'BBQ gear' on board at all times. Events are listed below and include meetings for members and the opportunity, each season, to help keep the Clubhouse and the surrounding area in good condition (the Working parties!).
